REMARKS

The figures of births and deaths shown in this statement for week ending the 14th April, 1956, relate to 204 towns with an estimated population of 27,570 thousands. The total number of towns is 317 and their population is 41,516 thousands. Thus 64% of the total number of towns representing 66% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,556 and 6,533 representing birth and death rates of 27.5 and 12.3 per thousand of population respectively.

(a) *States (Part A and C)*.—The data here relate to 156 towns with an estimated population of 21,326 thousands. Information about Bihar, Delhi, Madhya Pradesh and West Bengal could not be included. The total number of towns is 252 and their population is 33,432 thousands. Thus 62% of the total number of towns representing 64% of the total popula-

tion is covered. The number of births and deaths recorded in these towns were 12,354 and 5,572 representing birth rates and death rates of 30.1 and 13.6 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B)*.—The data here relate to 48 towns with an estimated population of 6,244 thousands. The total number of towns is 65 and their population is 8,084 thousands. Thus 74% of the total number of towns representing 77% of the total population is covered. The number of births and deaths recorded in these towns were 2,202 and 961 representing birth and death rates of 18.3 and 8.0 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
